HIGHLIGHTS

Durable ceramic grinder

Because a metal grinder might burn the coffee beans while grinding, all Gaggia's Espresso machines are equipped with an extremely durable ceramic grinder. A ceramic grinder will retains the purity of the coffee aroma while being equally durable to a metal grinder. Additionally the coffee grind can be adjusted from coarse to fine, just as you prefer.

Adjust your Espresso

The settings in this Gaggia Espresso machine allow you to adjust the body and aroma of your coffee to suit your taste, while maintaining a perfect crema.

Cup warmer

Your Gaggia Espresso machine has an energy-efficient integrated heating element to provide pre-warmed coffee cups. Pre-warming a cup will ensure your Espresso stays hot for longer.

Pre-brewing

Pre-brewing ensures that the ground coffee is evenly moistened before the actual brewing process. Only then the water flows through all of the ground coffee and your Gaggia Espresso machine can extract the full aroma for a balanced and tasty Espresso.

Stainless steel body

The case of your machine has been skillfully manufactured from stainless steel. This makes your Gaggia more robust, ensures long-lasting performance and is an eye-catcher in every kitchen.

Digital display

Whatever you want to do with your Gaggia - the digital display makes navigation much easier and gives instant feedback on the status of your Espresso machine.

One touch operation

Just press one of the 7 pre-set beverages and your Gaggia Espresso machine will brew them in a few seconds.

Removable brewing group

The removable brewing group in your full-automatic Espresso machine allows for easy cleaning and maintenance and can even be replaced separately if necessary. This saves money and increases the machine hygiene for a flawless coffee taste.
